

THE BOSTON MORNING POST.

PUBLISHED DAILY, AT NO. 21, WATER STREET, BY CHARLES GORDON GREENE.

VOLUME V.—NO. 155.

POETRY.

SINGULAR OLD SONNET.

The longer life, the more offence,
The greater pain, the less defence;
The less defence, the lesser gain—
The loss of gain long ill doth try,
Therefore, come, death, and let me die!

The shorter life, less count I find;
The less account, the sooner made;
The count soon made the merrier mind;
The merrier mind doth thought invade—
Short life, in truth, this thing doth try;

Wherefore, come, death, and let me die!

STENOGRAPHIC GLIMPSES OF CONGRESS.

LXXXVII.

Washington, March 7, 1834.—FANNY KEMBLE made her last histrionic appearance in Washington last night—and took an affectionate and final farewell of glistening eyes and throbbing hearts. She is no longer the "Julia," the "Marianna," the "Juliet," the "Beatrice," the "Bianca," of the fond imagination, and the idolizing heart—but she is

I cannot speak the title or the name! *She is no longer the enchanting FANNY KEMBLE!* She has yielded up the admiration of a hundred thousand hearts, for one!—the applause of a myriad of hands for one!—Peace be with her!—the peace that passeth "show" Joy be with her!—the joy that dependeth not on the world's applauses. Happiness be with her!—the happiness the world can neither give nor take away. I could not say less—I need not say more. And now,

"A kind farewell!—
For she deserves it, to this noble lady."

In the Senate, this morning, the old *popular* Melo Drama of "Distressing Memorials," was performed. The house was crowded at an early hour. The two first political tragedians of the day, Messrs Webster and Clay, enacted the principal parts. Two dramas, with "modifications," were offered, one written by Lancaster, and the other by Philadelphia, county, (Penn.) Mr Webster, at the particular desire of several people of distinction in both localities, made speeches on both. The thing was very much like the "play" in Hamlet—and might well be termed the "Mouse-trap"—with this difference, however, that nobody would take the "word" of any of these "ghosts" of "distress," for a single cent—much less for a "thousand pounds."

Mr Webster made speeches, not arguments; he painted, not debated, the subjects. He represented the agricultural interest as the "real lion of the country," and Lancaster county as one of its cubs, calmly sleeping in the valley of peace, till the removal of the deposits, like the swelling of Jordan, aroused it from its slumbers! It is a great mistake—(this groaning about distress,) it is only an *ass in a lion's skin*, and Midas, with *ass's ears!* Are we all asses, that we cannot see, that not a single dollar of this "sound paper currency," this "medium of value," as Mr Webster terms it, is annihilated?—that the State Banks have just as much money as they had before; but they dare not discount, lest the U. S. Bank and its Branches, (which have hoarded all the specie except what they have sent out of the country,) stand ready to pounce upon them, and demand specie, if any discounts are made?

Are we asses, that we do not see the operation of Mr Clay's Compromise Bill, by which the merchants are bound to pay the duties of two years in one?

Are we asses, that we do not see that Mr Clay foresaw the operation of his Bill—and that it was calculated to increase the pecuniary distress of the country, in order to force the government, by the outcries of bankrupts, (who lived upon borrowed credit, and sported like Jackdaws, in borrowed feathers,) to renew the charter of the Bank?

But I wont stop to argue the case; there is no necessity for this; the Chief Magistrate, the choice of a vast majority of the people, supported by their affections and confidence, has irrevocably settled this vexed question. While he lives at least, with his consent, there will be no charter, nor re-charter.

To return. Mr Webster, in his most supplicating terms, called for "relief" for the agriculturalists of Lancaster, and the house-builders of Philadelphia. He made a pathetic and moving speech; and, but for concealing the real cause of distress—the curtailments of the U. S. Bank, and her threats against the State Banks—it might have moved almost any one to compassion. "But the tears live in an onion, that should water the griet." The whole argument only goes against the nomination and succession of Mr Van Buren. To use a favorite illustration of Mr Webster, it is "as plain as the Pennsylvania Avenue"—and about as *Clayey*, too!

After the curtain dropped on Mr Webster's performance, Mr Clay rose to congratulate him; and made the most humble supplication, that the President's heart might be softened, I have ever heard from his lips; and in tones, language, gesture and manner, perfectly respectful. He made a personal appeal to the Vice President, imploring him to use his influence with the President, to change his determination; saying, that no man had more influence over him, (the President) than he had. After he had thus by his pathetic speech, won the feelings of the audience, by his apparent humility and sympathy for the distresses of the country, he introduced a set of Resolutions, declaring that the President ought not to remove any officer without the concurrence of the Senate; and that the Senate ought to appoint the Deputy Post Masters, &c.—and then made a most vehement speech against the President and his measures, particularly inveighing against the placemen and office holders, saying, there were "forty thousand of them that were swayed by the will of one man; and that this class was far more dangerous to the liberties of the country, than a standing army." I have so often heard him preach from this text, that it has but little novelty for me; and I shall not therefore pursue him in his homily.

On the whole, it was quite an interesting day. Both the House and Senate sat late, and adjourned to Monday.

REIS EFFENDI.

WANTED—A young man in a grocery store.—A�ly at 4 Brattle square. mar 11

FRIDAY MORNING, MARCH 14, 1834.

PRICE \$4 PER ANN. IN ADVANCE.

REIS EFFENDI.</

THE MORNING POST.

FRIDAY, MARCH 14, 1834.

TO THE OPPONENTS OF THE UNITED STATES BANK.

The Friends of the National Administration, and all those opposed to the re-charter of the U. S. Bank, and the return of the Public Deposites, are requested to meet at FANEUIL HALL, ~~W~~ THIS EVENING, at 7 o'clock, for the purpose of taking such patriotic measures as they may deem proper, in approbation of the policy of the Administration towards that Institution.

The DEMOCRATIC MEMBERS OF THE LEGISLATURE are invited to attend this meeting.

TO-NIGHT, AT FANEUIL HALL, the PEOPLE will assemble for the purpose of expressing their opposition to the United States Bank, and determination to sustain the Government. The Hall will no doubt be filled soon after it is opened, and we recommend to those who wish to gain admittance, to go early.

~~W~~ The Steamboat Mail arrived before three o'clock, yesterday afternoon, by which we received the proceedings of Congress on Monday. The packet ship Philadelphia, from London, was below, at New York, on Wednesday evening, with later dates from that place.

London papers to the 29th and Liverpool to the 30th Jan. were brought by the ship Emperor, which arrived at this port yesterday.—Their contents are unimportant.

Imprisonment for Debt.—The public look to the Senate of this State for the passage of a law abolishing imprisonment for debt—a bill to that effect has passed the House by a great majority, and the power of making it the law of the State rests with the Senate. **THE PEOPLE WILL HOLD THEIR SENATORS RESPONSIBLE FOR THE RESULT OF THIS QUESTION**—The public has demanded the abolition of imprisonment for debt—the Executive has recommended it, and Justice calls for it. Let there be no hesitation—no skulking—no legislative trick of suffering it to remain upon the table among the unfinished business, or tacking to it useless amendments, but a prompt and ready action, that the citizens of Massachusetts may know who is for them and who against them.

To the Editor of the Boston Morning Post.

Sir—I saw it stated in a paper called the Boston Atlas, that the "office holders" had sent a memorial to the President about the U. S. Bank. The memorial probably alluded to by the Atlas, was started at my shop, No. 22, Federal street, by a number of Mechanics, was circulated by them among their brethren and received several hundred signatures, among which, there was not, to my knowledge, the name of a single "office-holder."

SAMUEL ADAMS.
Boston, March 13, 1834.

"All the decency."—The opposition papers have given a general circulation to the following epithets, applied to Gen. Jackson:

"Such a miserable remnant of humanity."—One of the most vindictive despots, that ever rode rough-shod over a patient people."—My correspondents in Pittsburgh and Cincinnati are furious—talk of not waiting three years to stick the old rascal."—We shall yet be able to cage the tiger, pare his claws, and extract his teeth."—The effigy of a man, whose whole life, with one exception has been a disgrace to the nation."

One of the tricks of the opposition, to deceive the public, is to put words into the mouths of their opponents and then abuse them for their violence—this is practised almost daily, by the Boston Atlas, alias the Massachusetts Journal, Jr.—"Selim" lies. Trouble you for that hat, Major.

The Massachusetts Journal, Jr. says that the meeting of the citizens at the Temple on Wednesday evening was "a sorry affair"—we think so, for the Bankites.

The Pennsylvanian says that one of the Philadelphia memorials in favor of the Bank, "contained the names of minors without number, and old women without teeth." Go to thou most ungallant editor.

A Joke.—Major Noah talks about being alarmed at corruption.

Sagacity of the Horse.—We learn from the Philadelphia Intelligencer, that a noble horse who was on board the William Penn at the time of the conflagration, appeared to be conscious of his entire dependence upon human aid for safety, and followed Capt. Jeffries from one part of the boat to the other, like a dog, manifesting great fear and apprehension.

His conduct at length attracted Capt. J.'s attention, who immediately led him to the side of the boat, and said, "my noble fellow, you must leap this railing, or be lost." To the great surprise of the Captain, the horse appeared to understand him, and, leaping the rail, plunged into the river, swam to the shore and escaped. Generally speaking, horses are so terrified by fire that they will stand still and be burned to death, rather than move—and we have witnessed instances where they could be induced to leave a burning stable, only by blinding their eyes, and hiding the danger from their sight.

Greenough, the Sulptor, writes from Florence, under date of the 18th Nov. that he has finished his design for the Statue of Washington in clay, half the size of life, and the drawing will in a few days be ready to send to Washington, and shall have the great model up by the close of February, if not sooner.

Indian Annuities.—The estimated expense for Indian Annuities for the year 1834, is \$45,910.

The bill relating to Tavern Licenses, striking out Bars in Theatres, has passed the Legislature of Pennsylvania, and become a law.

Police Court.—We begin to believe in the stagnation of business complained of by the opposition—even the Police Court feels the effects of it. There has not been a villain of consequence arraigned this week. This is certainly an advantage not appreciated by the opposition, nor contemplated by the President when he removed the deposits. The intelligent and fashionable throng that usually impart life and interest to the court, have adjourned to the Municipal, where the juries are briskly closing the accounts of some small villains, whose cases have already appeared in our paper, "in all the pomp and circumstance," rhetorical and poetical, of a police report. When fresh caught, we do our best to sketch them with our "flourisher," as an ex-judge would say; but after they have lain a month in jail, like smoked herrings, they lose their original lustre, and sadly belie our flattering portraits of them.

In the Municipal Court, Mary Ann Goddard, alias the Posey, did not contend with the Commonwealth, on an indictment for keeping a brothel, and was fined \$100, and ordered to find sureties to keep the peace, in the sum of \$100.

Mrs Betsey Kemp was acquitted, on a charge of robbing from a chaise in South Boston, upon the ground that her agency in secreting the goods stolen, was controlled by her husband, who pleaded guilty. Her son, Francis, was convicted of stealing the nails.

In the Police Court, he set up for a defence, that he found the nails, and his father swore that he saw him pick them up, and another individual, now indicted, swore he saw Frank "kick the nails before he picked them up." The kick was a clincher, and Frank left the court triumphantly; but on the trial on the indictment, he set up an alibi, and the old lady, who, having been acquitted, was a competent witness, swore that he was not in South Boston, on the evening of the robbery.

Mr Hourt, of the Warren, presents his well-founded claims for a Benefit this evening.—Mr H. is one of the most efficient, faithful and prompt members of the company. He is always on hand to murder or moralize—the kind-hearted old squire, or the merciless bandit—"all things to all men," though best in "uphill business." His deportment is remarkable for its propriety, and respectful character towards the audience. He seems always aware that his business on the stage, is to act, and not to show himself—an example that might be followed with advantage by two or three others. The Bill of Fare on the occasion is substantial, and the musical accompaniment "the best the house affords;" and that's not slow, on the singing order.

The Bold Dragoons, a new and capital farce will be repeated at the Tremont, this evening, after Henry the Eighth is disposed of.

Splendid Organ.—We dropped in, yesterday, to the organ manufactory of Messrs E. & G. G. Hook, in Friend street, and were highly gratified by an inspection, and a taste of the quality, of the powerful and elegant organ recently built by them, for the First Baptist Church in Providence. This instrument is pronounced by eminent musical professors, who have examined and tried it, a very superior one. Those who may not have an opportunity of seeing it, before it leaves the city, will be able to judge of its compass and power, from its dimensions, &c. viz.—23½ feet high; 14 1-2 wide; 10 deep; with three sets of keys; 30 stops, with 1 1-2 octave double diapason. It is valued at \$4000, and may be seen for a few days at the manufactory, where the builders extend every facility to those who are desirous of examining it.

A small mistake.—The Savannah Republican publishes the following errata—"In our cholera article of yesterday evening, for 'No,' read Yes; and for 'Yes,' read No."

A London paper once published its equal, as follows:—"For her Grace, the Duke of Bedford," read "his Grace, the Duchess of Bedford."

The Vandalia, Ind. Advocate says—"The weather continues warm and pleasant—the roads are as bad as can be desired—and our river full of water and wild fowl. The frogs have also commenced serenading those living in low places; however unfashionable it may have been during the late season."

Nehemiah R. Knight, of Providence, and Joseph Cross, of Charlestown, have been nominated for the offices of Governor and Lt. Governor of Rhode Island, by the "Constitutional Convention" which convened in Providence on Wednesday.

There was another fire in New York on Wednesday, which destroyed the handsome three story brick building, No. 469 Pearl street. The fire is supposed to have originated from gas, which was left ignited in the drug store, a room of small dimensions.

A Mr Mills of Baltimore has constructed a balloon said to be one third larger than that of Mr Durant, with which he intends to make an ascension from Federal Hill.

Mr Samuel Manning of New Salem committed suicide, by hanging himself, on the 27th ult.

Gen. Isaac Hodsdon has been nominated for the office of Mayor of Bangor.

The gentleman who borrowed three numbers of Niles Register, (containing the report of the Government Directors of the U. S. Bank &c.) at this office, three weeks since, is requested to return them.

In the report of the proceedings at the Temple, published in yesterday's Post, the name of W. Winthrop Andrews was erroneously printed.

We shall publish an account of the Trades' Union Convention, with the Constitution adopted by it, to-morrow morning.

A mammoth bullock was killed at Mobile, weighing upwards of three thousand pounds.

The Potato crop in Ireland fell short one third of the usual average, the past year.

CONGRESS.

Monday, March 10.—*In the Senate*, Mr Silsbee presented a series of Resolutions passed in the Legislature of Massachusetts, complaining of the state of the currency and asking for the restoration of the deposits and the renewal of the charter of the Bank. Mr. Webster gave notice, that he would on Monday next, introduce a bill for extending the term of the charter of the present Bank of the United States.

In the House, Mr Ghosh, of Va. addressed the House upon the subject of the resolutions of the State of Virginia. He censured the President for the removal of the deposits, and said that he desired them restored—but added that the whole of the Southern States in a body were hostile to a renewal of the charter of the Bank. He said he thanked the Chairman of the Committee of Ways and Means for their second resolution, that the bank ought to be chartered, and that he would support it. Mr Moore, of Virginia, next spoke, defending the conduct of Governor Floyd. Mr Pinckney, also addressed the House, which adjourned before he had concluded.

MASSACHUSETTS LEGISLATURE.

Thursday, March 13.—*In the Senate*.—The bill to set off Thompson's Island from Dorchester to Boston came back from the House, with an order recommitting it to the Committee on Towns, which was adopted in concurrence. Mr Barton from the Committee on the Judiciary, on an order of the 10th instant, reported a bill limiting the powers of County Commissioners, and providing for a settlement of their accounts, ordered to a second reading to-morrow, and to be printed. On motion of Mr Blake, the bill to establish the Chelsea Free Bridge was taken up, amended, and laid on the table.

In the House.—Order of notice on the petition of the Boston and Providence Rail Road. Speaker presented the report of the Trustees of the State Lunatic Hospital—referred to a select committee. Bill to incorporate proprietors of Fresh Pond Meadows—passed to be enacted.

U. S. Ship Fairfield.—It appears from a statement in the Norfolk Beacon, that on the night of Nov. 25th, when President Flores recaptured Guayaquil from Gen. Rocafuerte, a boat was sent on shore from the U. S. Ship Fairfield, then in the harbor, to ascertain the cause of the firing.

About 11 o'clock the boat returned, having been fired into by the troops of Flores—two of the boat's crew were wounded—one of them, Henry Young, had six balls in him, two of which were in his head; he died about half an hour after getting on board; the other man, William Gunnison, had two balls through his body, and his left arm broken; he was recovering. The Fairfield was at Payta, 13th Dec., to sail in 10 days for Callao, and thence in a few days for Valparaiso. All well.—*Jour. Com.*

Latest from Rio de Janeiro.—By the ship Constitution, Capt Dawes, arrived in Hampton Roads, we have intelligence from Rio de Janeiro to 22d January. The market was much depressed when the Constitution sailed.

Captain Dawes left at Rio the U. S. ships Natchez, Captain Zantinger, for the River La Plata, in five or six days—Peacock, Capt Geisinger, and schooner Boxer, Lt. Com. Shields, arrived a few days before he sailed, from the East Indies. The officers and crews of the above vessels were well. Captain D. understood at Rio that the Peacock would sail for the U. States in five or six weeks.—*N. Y. Com. Adm.*

Report of the Trustees of the State Lunatic Hospital.—We have been favored with this very interesting document. It exhibits a highly creditable view of this philanthropic institution, and shows that it has been in the care of good hands.

The institution bids fair to be one which will be of much advantage to the State—and add vastly to the happiness of the unfortunate sufferers who enjoy its comforts and conveniences.—*Worcester Rep.*

Fire at New Orleans.—A fire broke out on the evening of the 22d ult. in a warehouse attached to the Cotton Press of Mr Ogden, in Magazine street, and before it could be subdued, the building, with six hundred bales of cotton, was consumed. It is said the fire was the work of an incendiary, a negro man. The property was insured.—*N. Y. Com.*

Another Steamboat Accident.—A Cincinnati paper of the 4th inst. states that the steamboat Banner collapsed her flue, on the 23d ult., twenty-seven miles below St Louis. The engineer was badly scalded—the chambermaid lost her life.

The New York Star says: The female who lost her life during the late accident on board the steamboat William Penn, has been recognized as Mrs Patterson, of the Eastern Shore of Maryland.

Capt Benjamin Rhodes, a revolutionary pensioner about 70 years of age, was drowned on Monday, in the bay near the village of Pawtuxet. He was nine months a prisoner on board the Jersey prison ship, and was among the oldest of our nautical commanders.—*Pro. Jour.*

On Monday, between 2 and 3 o'clock, a man dressed as a sailor, ran down to the end of Catharine street dock, New York, jumped into the river and was drowned.

A fire occurred at York, U. C., on the 21st ult., which destroyed five dwelling houses, and a boy aged ten years, a son of one of the occupants of the building, perished in the flames.

Corporal Heston, formerly of Washington's army, recently died at Pittsburgh. He was buried with military honors by the U. S. garrison, and a funeral address was made by Maj. R. L. Baker, commander of the arsenal.—*U. S. Gaz.*

Mr David McGiffin, aged 35 years, committed suicide on Friday afternoon, in Kensington, by taking laudanum. Domestic troubles were assigned at the cause.—*Ibid.*

Lead Mine.—A rich mine of lead has been lately discovered in Columbia county, New York, about twenty miles back of the city of Hudson.

Meetings continue to be held in South Carolina by the members of the Union party, to protest against carrying the military bill into execution.

100,000 men, of all ranks and kinds, scattered over the world, occupying 144 stations.—20,000 of these are paid by the East India Company.

Forty sheep, belonging to Herman Smith, of Northampton, were either killed or maimed, a few nights since, by some ferocious animal.

It has been ascertained that there are 83 confirmed drunkards in Northampton, besides a large number of novices.

The Potato crop in Ireland fell short one third of the usual average, the past year.

A mammoth bullock was killed at Mobile, weighing upwards of three thousand pounds.

The Potato crop in Ireland fell short one third of the usual average, the past year.

BERKSHIRE COUNTY CONVENTION.

At a meeting of citizens from all parts of the county held at the Court House in Lenox, on the 26th day of February, 1834, Hon. PETER BRIGGS was appointed Chairman, and Charles M. Owen and Lester Filley, Secretaries and the following resolutions were adopted:

Resolved, in the sense of this meeting that a ratio of representation which admits of six or seven hundred Representatives necessarily conduces to waste of the public money and is fatal to public spirit in this state.

Resolved, That in the opinion of this meeting it is expedient to reduce the number of Representatives upon the principle of equal representation.

Resolved, That it is utterly hopeless to expect that the Legislature will ever present to the people for their adoption any plan for reducing the number of representatives upon the principle of equality, and that the only mode of effecting the object is by a convention of the people, and that the most efficient way of producing such convention will be found in public meetings of the citizens of the several Counties convened to discuss and canvass the reasons for the reduction of the representation, therefore

Resolved, That the citizens of the Commonwealth be requested to meet in their several counties for the purpose of expressing their opinions in relation to the subject of the two first resolutions and also in relation to any other amendment of the Constitution.

Resolved, That the proceedings of this meeting be signed by the Chairman and Secretaries and be published in the newspapers of the county and also in two of the papers published in Boston.

The meeting was then adjourned to meet again at the Court House in Lenox, on the 15th day of May next, at 1 o'clock, P. M.

PETER BRIGGS, Chairman.

CHARLES M. OWEN, *Secretaries.*

TRADES' UNION.

A meeting of the BOOT AND SHOE MAKERS of Boston, was held at Concert Hall, on Monday evening, 10th inst., for the purpose of choosing Delegates to the Convention of the Trades' Union.

The meeting was organized by calling Mr WILLIAM T. SPEAR to the Chair, and appointing Mr DAVID HOWARD, Secretary.—The objects of the meeting were then stated by the Chairman and others. It was then

Voted, To proceed to the choice of two Delegates to represent the Boot and Shoe Makers in the Convention of the Trades' Union. Messrs WILLIAM T. SPEAR and J. SMITH were chosen.

A Committee of three was then appointed to draft a Constitution for the Boot and Shoe Makers' Society, and to report at an adjourned meeting. Messrs POND, JOHNSON and SPEAR were chosen. It was then

Voted, To publish the proceedings of the meeting in the Artizan and Morning Post.

Voted, To adjourn to meet at this place, on Monday evening, 17th inst., at half past seven o'clock.

WILLIAM T. SPEAR, *Chairman.*

DAVIS HOWARD, *Secretary.*

The wharves and warehouses at the port of Apalachicola, Florida, it is said, are filled to overflowing with cotton, and it is confidently expected there will be above twenty five thousand bales shipped during the present season.

A tumor, weighing two pounds and a quarter, was taken from the back of a woman residing in Mount Carbon, by Dr James S. Carpenter, assisted by Dr J. E. Sorber. We understand the woman is recovering rapidly from the effects of the operation.—*Philad. Chron.*

GEN. JACKSON'S BIRTH DAY.

BROWN'S SELF-INJECTING INDIA RUBBER INSTRUMENT.

BY which removes costiveness and many of its consequent complaints, by the use of warm water only. The instrument is put up in a small pocket book, which may be carried in the vest pocket. It is so simple and portable an article, that its use is decidedly more pleasant than most of the instruments now in use; it has no piston or valve, or any of the complicated contrivances which causes the common instruments to get out of repair. It may be used by any person alone with the greatest ease, and it can be administered to patients lying in bed without turning them over or exposing them in the slightest degree. In this respect it has a decided advantage over all other instruments, as it does also in convenience, portability, and cheapness. Price \$2.50. Please to order by signature of the proprietor, William Brown, written with indelible ink on the inside of the India rubber cloth.

CERTIFICATES.

Having employed Mr William Brown's Self Injecting India Rubber Apparatus, both in private practice and in the Massachusetts General Hospital, I can recommend it as well calculated to answer the purpose for which it is intended; while it is at least as effectual as the common instruments now in use, it possesses the advantages of being in a more portable form, of a more simple construction, and consequently more easily kept in order, and of being afforded at a much less price.

GEORGE HAYWARD,

Jun. Surg. of the Mass. Gen. Hospital.
April 15th, 1833.

JOHN WARE.

U. S. Marine Hospital, April 18th, 1833.

Mr Brown—The domestic instrument I received of you, I find upon a thorough trial to answer the expectations I had previously formed of it. Its simplicity of construction, its portability, its being free from the liability to injury, and above all, the ease with which lave-ments may be administered by its means, have induced me to employ the instrument in this institution to the exclusion of all others formerly in use.

C. H. STEDMAN,

Phys. and Surg. U. S. M. H.
The following Physicians hereby certify that we have in our practice, used Wm. Brown's Self-Injecting India Rubber instrument, and find it as simple, commodious and effectual an article of the kind as we have ever known; it we have, therefore, no hesitation in pronouncing it to be a valuable instrument, and recommend it for general use:—

Matthew S. Perry, John D. Fisher, Samuel G. Howe, John Homans, J. G. Stevenson, Joshua B. Flint, Boston; Charles M. Winslow, Roxbury.

Boston, April 16th, 1833.
To be had at wholesale of the proprietor, WILLIAM BROWN, 481 Washington street; Henshaw & Co., India street, F. S. & N. Carruth, head of Long wharf.—Retailed by J. M. Smith, Brewer & Brothers, Washington street; J. Kidder, Court street; James Powle, Green street; E. Wright, Milk street; likewise, by most of the other Druggists throughout the United States.

20—fr

COMPOUND VEGETABLE SYSTEMATIC PILLS.

PREPARED by A. STEWART. Which under the divine blessing we have been the means of restoring to health and activity many persons suffering various diseases, completely given over by physicians.

Sixty *Cathartick* or *Purgative* *Pills*.—They are useful in almost every disease, whether Cathartick or necessary, and they are perfectly safe in all conditions of ill health when it is necessary to clear the Prime Viscerous Stomach and Bowels of its superfluous matter and to prepare for the use of the other Pills as recommended for the complaint. They are a certain and immediate remedy for the Tenia, or Worms and all sudden attacks of Bilious and Colic complaints. These Pills do not interfere with the ordinary occupations of the patient.

Two *Mild Aperient* and *Aperient* *Pills*.—These Pills are recommended in most cases after a few doses of No. 1. They are a certain remedy for Indigestion, Dyspepsia, Jaundice and all Bilious complaints, loss of appetite, Headach and Piles.

Three *Mild Aperient, Deobstruent or Female* *Pills*.—These are recommended in almost all complaints which Females are subject to, such as obstructions of customary evacuations and all nervous affections, sick Headach, pain and palpitation of the heart and breast, Weakness, Debility, Dyspepsia, Flatulency, Costiveness, Inflammations, Strangury and indeed all complaints incident to the human frame. They are perfectly harmless, and may be taken in all cases and all stages; they will neither hinder business nor amusement, and will, if persisted in, prevent and carry off numerous complaints which are daily sending many of our fairest and worthiest of creation to an untimely grave.

Four *Ulcers, Consumptive, Alterative* *Pills*.—These Pills are designed for Consumptive complaints in all their different stages, and may be taken with perfect safety; they are also alterative. The same kind of Pills have twice saved my life in consumption, when every thing was prepared for a funeral except the coffin; to these and to Pill No. 2, I owe my present wonderful recovery from a complication of diseases accompanied with ulcers of the Phagedenic nature, which for nearly 9 years did deiance to the first Physicians in Massachusetts and New York, and was pronounced by them incurable. The Pills are pure vegetable, but act very powerfully on the system without producing any dangerous or disagreeable effects. Used with great success in Herpes, Exedens and Phagedenic Ulcers or Erysipelas, Scrofula and Calious eating Ulcers.*

Five *Rheumatic* *Pills*.—These operate by stool, urine, perspiration and as a general alterative. Rheumatism is often accompanied with pains in various parts of the body, and other diseases such as Scrofula, Scurvy, White Swelling, Gout, Syphilis. Where nothing is supposed to be present, but Gout or Rheumatism, they are an infallible remedy.*

Six *Asthmatic* *Pills*.—An infallible remedy for Coughs, Colds, Catarrh, Whooping Cough, Asthma and Dropical complaints; they are expectorant and slightly purgative.

Seven *Syphilitic or Antimedieval, Chemical* *Pills*.—All my Pills with the exception of these are compounded from the vegetable kingdom alone, but as there are a great many complicated diseases frequently accompanying Rheumatism, Scrofula, Gout, pains in the head and joints, which are generally worse when the patient is in bed, such of these do not give way to some of the foregoing Vegetable Pills, as there may be some remains of Virulence in the compound, and lurking in the system; or in other words mingled with the juices of the body, whether from a hereditary taint, or some infirmity of youth, and as it is well known, or ought to be known, that there is but one certain cure for this complaint whatever pretenders and quacks may tell you, thousands are annually carried off by this direful complaint.

A. STEWART.

* Ask for No. 2, or No. 1, to take alternately with them.

Price of each box is \$1, except No. 7, which is \$1.50. Sold at the bookstore of R. P. & C. WILLIAMS, Nos. 18 and 20, Cornhill, Boston, who are duly authorized to appoint Agent to the United States, and in the British Colonies.

Letters addressed to R. P. & C. Williams, postpaid will be attended to.

ff—27

INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS. ANDERSON'S VEGETABLE

Elixirs, for Dyspepsia or Indigestion, Jaundice and Bilious Complaints; weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headache, sour stomach, flatulence and habitual costiveness.

This medicine is composed entirely of vegetable substances, is perfectly safe in its operation, and may be given to children or persons of the most delicate habit without the least risk of inconvenience.

The present success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, afford strong proof to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from Indigestion for three years. "During this time I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pains on the most part of the whole system—the food that I ate seemed to pass into my lungs and there remain, giving me great pain attended with a strong degree of heat. Attimes I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue on the least feeling of any thing like indigestion or pressure on the stomach, to take about a tablespoonful of it which, in the course of a few hours, completely restores me. It has had with me very wonderful effect in strengthening the stomach and invigorating the whole system, and judging by my own case I consider it an all disease connected with the digestive organs to be of valuable medicine."

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half; and sold at *one* *green* *cents* each, by Jonathan P. Hall, Jr., No. 1, Union street, John P. Whitwell, Milk street, John J. Brown, near Boylston Market, Erastus St. Holden, near the Western Avenue, Richard A. Newell, Summerst., Boston, Samuel Kidder & Co., Charlestown, E. G. Lemon, Roxbury. *oply* f 8

FOR SALE OR TO BE LET.—A two story Dwelling House, situated in the pleasantest part of Cambridge Port, near the Baptist Meeting-house, containing a parlor, sitting room, kitchen, bed room and wash room, on the lower floor; 4 good chamber above. Also wood shed and good well of water. Said house is nearly new, and a pleasant situation for a gentleman doing business in the city. For further particulars, inquire of the subscriber, EDWARD BROWN, Jr.

Cambridge Port, Jan 10, 1834.

31

CORK COLLARS AND SADDLES.

THE AMERICAN CORK COMPANY offer for sale, ground or grated Cork for stuffing horse Collars and Saddles. It has been used during the past season by several Saddle and Harness makers, and it is a non-conductor of heat, has cured several horses whose breasts had become sore and inflamed by wearing the ordinary collars.

It has been proved beyond a doubt, to surpass every other substance that has yet been known or used for that purpose. The fact that it will not become matted, and is a non-conductor of heat, must convince every person of its value. But one farther advantage is, these Collars fit the breast of a horse immediately with the greatest ease, and it can be administered to patients lying in bed without turning them over or exposing them in the slightest degree. In this respect it has a decided advantage over all other instruments, as it does also in convenience, portability, and cheapness. Price \$2.50. Please to order by signature of the proprietor, William Brown, written with indelible ink on the inside of the India rubber cloth.
